PROLOGUE

This report updates much of the data presented in the 1991 Factbook and the final Strategic Planning Committee Report (issued in June, 1990). The document identifies the University's absolute position, and in many cases the institution's comparative position three years following the collection, analysis, and presentation of the data that was a part of the strategic planning process. Again this year, there may be some slight inconsistency in the figures in a few of the charts. This is a result of the timing difference in collecting some of the data for the Factbook.

The 1994 Factbook represents the final report on the Strategic Planning Committee Report of 1990. The University's new planning document, Engagement In Learning, will be the focus of subsequent Factbook reports. Engagement In Learning, approved by the faculty and the Board of Trustees in fall, 1994, presents 75 goals that seek to move the institution toward even higher levels of achievement.

This report makes a very positive statement about the University's current position in relation to its list of comparative colleges and universities. Appendices A and B, "Comparative Schools," located at the back of the Factbook, present in detail the general characteristics of the University's comparative college groups, plus the law school comparative institutions. What is not captured in this report is the success the University has enjoyed in reaching many of the Strategic Planning Committee Report goals endorsed by the faculty and trustees in the spring of 1990. Information concerning the status of the 109 identified goals was published most recently in May, 1994, as the Report on the Strategic Planning Committee Goals," and will be published again in May, 1995.

The 1994 Factbook is divided into two primary sections. The first section, "A Profile of the University," pages v to xx, presents a snapshot of several University characteristics. The second section, divided into seven parts, expands on much of the data shared in the summary, but does not attempt to analyze the exhibits included in each part.

Should you have questions regarding the report, or the manner in which the data was gathered or is presented, please call me or Mr. Louie W. Love, Internal Auditor and Coordinator of Institutional Research, or Ms. Judy M. Wilkinson, Administrative Assistant to the President and Research Associate to the Planning and Priorities Committee.

Thank you for your interest in the University of Richmond and this report.

FACULTY

The core of any college or university is to be found in its faculty. Three measures of a faculty can be found in its salary structure, student-faculty ratio and activity in the areas of publication and grant application.

Chart 4, "Average Faculty Salary by Rank," compares the University salary structure with the averages of comparative college Groups I and II.

FINANCE

Three of many financial factors that can be used to characterize a college or university's financial condition are presented in the following charts.

Chart 7, "College Costs, 1987-88 through 1994-95," reports on the University's relative position to comparative college Groups I and II. Our position relative to price has improved with all but one institution over the last eight years.

¹ Number of faculty reported for each respective year in The Annual Report on the Economic Status of the Profession, Academe, Bulletin of the American Association of University Professors, March-April issue each year.

² Number of faculty reported to Academe in 1991-92 is lower than normal due to the fact that 13 tenure-track positions were filled by visiting appointments for the academic year.

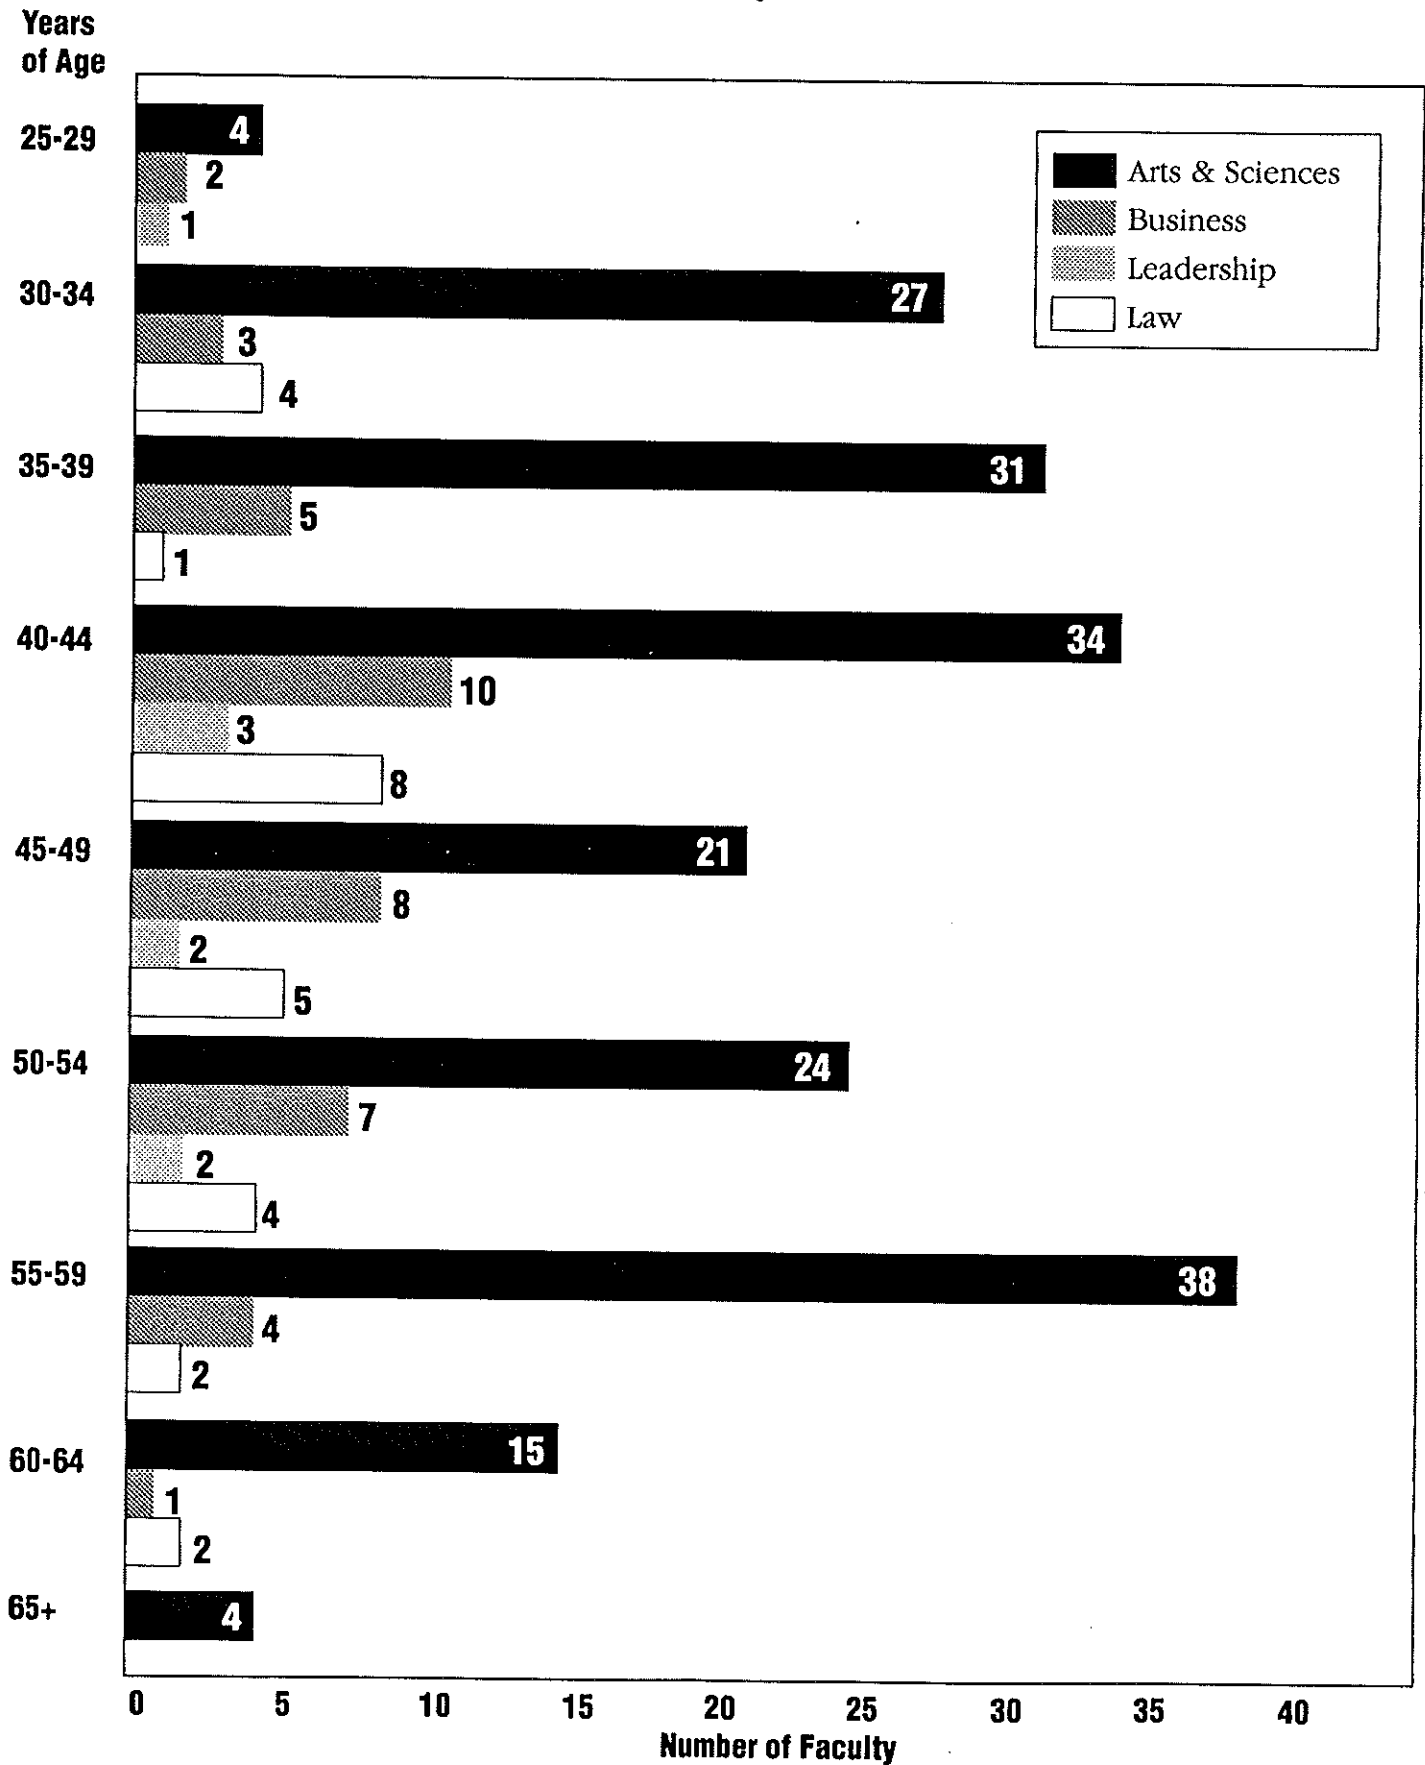

* Instructors and visiting appointments not reported. Figures reported under each division include visiting appointments and faculty on continuing, non-tenure-track appointments. Administrators and librarians with faculty status are not included.

New faculty include tenure track faculty, temporary appointments ranging from one semester to three-year appointments, year-long sabbatical replacements, visiting assistants, or visiting professors such as NEH or Freeman distinguished professorships.

Totals include men and women (of which the minorities are already counted).

* Includes newly appointed faculty who later became tenure-track.

Numbers in () indicate minority faculty members. These data were not kept prior to 1984.

1993-94 FACULTY SALARY COMPARISON AAUP Annual Survey

The University of Richmond is classified as a IIA institution (Comprehensive Institution) in the AAUP's annual faculty salary survey. "These institutions are characterized by diverse post-baccalaureate programs (including first professional), but do not engage in significant doctoral-level education. ...these institutions must grant a minimum of thirty post-baccalaureate degrees and either grant degrees in three or more post-baccalaureate programs or, alternatively, have an interdisciplinary program at the post-baccalaureate level." (Academe, March-April, 1994, p.28.)

In 1993-94 491 of 513 IIA institutions participated in the survey, representing 104,676 or 27.7% of all faculty in the study. The largest number of faculty, 146,118, in the survey are at doctoral level (Level I) universities. There are over 54,000 faculty in the study at general baccalaureate (IIB) institutions.

The ratings (1*,1,2,3,4,) used in the survey represent "the percentile interval in which the institution's average salary in a given rank lies (1* = 95th percentile or above, 1 = 80th to 94.9 percentile, etc.) (Ibid.) (Emphasis added.)

* The number in parenthesis represents additional proposals which the records attribute only to "U of R." In 1984-85, for example, at least 8 of these are likely to have been the work of individual faculty. Following 1984-85 there seems to be a trend toward identifying more faculty by name.

** The numbers reported in earlier Factbooks inadvertently included administrators. The figures for 1989-90, 1990-91 & 1991-92 have been corrected to reflect only faculty.

GRADUATION SUMMARY OF THE UNIVERSITY OF RICHMOND STUDENT-ATHLETES

In 1986 the National Collegiate Athletic Association (NCAA) standardized definitions for graduation rates of recruited student-athletes. Each year until 1991 this NCAA Academic-Reporting Form was used to report this information. The graduation rate was computed on a period ending on August 31st following the fifth year after the recruited freshmen student-athletes enter an institution as full-time students. Two rates were computed from this information. One rate allowed the inclusion of student-athletes who transferred from the University in good academic standing with those who graduate. The other rate only considered the student-athletes who started and finished at the University in five years.

---------	----------	---------	-----------	-----------	--------------------------------

These figures reflect that 81 % of all recruited student-athletes who enrolled at the University of Richmond during these eight years (1980-81 to 1987-88) graduated in five years from the University and that 95% of these same student-athletes either graduated or transferred in good academic standing. A comparable figure for graduation of these recruited student-athletes with the regular student body reflects that the student-athletes have 81% who start and graduate from the University in five years vs. 76% for the regular student body during the same period.

In 1991 the NCAA changed to the Graduation-Rates Disclosure Form. This change aligned the NCAA reporting with legislation that was pending in Congress. The major differences between the NCAA's 1986 and 1991 forms are: (a) a shift from an emphasis in **Recruited Student-Athletes** to an emphasis on **Freshman Student-Athletes Who Receive Athletics Related Aid**, (b) a shift from totals for men's and women's sports to enrollment information on student-athletes who received athletics aid, by racial or ethnic group, by gender and by sport group and (c) a shift from graduation rates for recruited student-athletes who graduated in five years to the graduation rates for athletes who received athletics aid in their first year at the University who graduated in six, seven or eight years. It is not possible to make a meaningful comparison between the information in the NCAA Academic-Reporting Forms from 1986 through 1990 and the Graduation-Rates Disclosure Forms starting with 1991. The information in the OFFICIAL NCAA 1994 GRADUATION-RATES REPORT provides information on student-athletes entering in 1983, 1984, 1985, 1986, and 1987. Each NCAA Division I institution has an OFFICIAL NCAA 1994 GRADUATION-RATES REPORT prepared by NCAA, based on data provided by the institution, in compliance with NCAA legislation and the Federal Student Right-to-Know and Campus Security Act. These reports are distributed to all high schools in a 1994 NCAA DIVISION I GRADUATION-RATES REPORT book. NCAA stipulates, "that a member institution is not permitted to alter or highlight the information contained in the report prepared by the Association."

VIRGINIA FOUNDATION FOR INDEPENDENT COLLEGES GIVING

Approximately \$300,000 per year, this gift is designated primarily in support of the University's operating budget. The 1992-93 University of Richmond share was considerably larger as a result of a one-time gift of \$41,222 to offset the cost of our duPont Visiting faculty member. The University of Richmond continues to receive the largest percentage of VFIC dollars:

STATEMENT OF PURPOSE

UNIVERSITY OF RICHMOND

STATEMENT OF PURPOSE

The University of Richmond is an independent, privately-endowed institution of higher education that provides a comprehensive academic program for men and women. It offers the intimacy of a small university and the diverse educational opportunities that derive from undergraduate degree programs in the liberal arts and sciences and in business, as well as graduate and professional programs in law, business, and selected areas of the arts and sciences. The University also provides a variety of credit and continuing education programs to the larger community. Related to the Baptist General Association of Virginia, the University affirms its commitment to serve individuals of all faiths and persuasions, without regard to race, sex, age, physical handicap, or national origin.

The educational objectives of the University are:

- to cultivate in students the interest, capacity, and skills necessary for independent intellectual inquiry and life-long learning;
- to convey to students a representative portion of that body of knowledge that has accumulated and endured through the history of cultures;
- to encourage and aid students in the development of basic beliefs, values, and attitudes;
- to assist students in selecting and preparing for careers and for study in graduate and professional schools;
- to foster in students personal habits that contribute to health and physical fitness.

In order to achieve these objectives, the University is committed to:

- an educational environment conducive to the development of the whole person--intellectually, socially, spiritually, physically, and morally;
- an academic setting that guarantees and encourages freedom of thought, expression, and association;
- an undergraduate curriculum that requires mastery of essential intellectual tools, understanding of basic aspects of human culture, extensive knowledge of at least one area of study, and physical exercise;
- a faculty dedicated primarily to excellent teaching and dialogue with students, while remaining actively engaged in scholarly, scientific, and artistic creativity;
- a diverse, largely full-time and residential student body that participates in a broad range of University activities;
- the essential resources for learning, such as libraries, laboratories, studios, computers, and audio-visual facilities and materials;
- opportunities for social commitment and public service, internships, travel and study abroad, and other appropriate learning experiences outside the campus;
- a program of varied social, spiritual, and physical activities that provide occasions for growth, fun, and fellowship;
- an administration that preserves and enhances the University's environment and resources, and that represents the institution to the broader community it serves.
