PROLOGUE

This document identifies the University's absolute position and, in several cases, the institution's comparative position in relationship to peer institutions. There may be slight inconsistencies in the figures in a few of the charts. This is a result of the timing difference in collecting some of the data for the *Factbook*.

On May 12, 2000, the University's Board of Trustees approved the current Strategic Plan. This document will continue to serve as a monitor on the forward momentum of this institution. Should you have questions regarding the report, or the manner in which the data was gathered, please contact me.

Thank you for your interest in the University of Richmond and this report.

Profile of the University

Environment and History of University of Richmond

The campus consists of some fifty major buildings, of impressive Collegiate Gothic architectural style, set amid 350 acres of lawns, lakes, and woodlands. Richmond's history began almost two centuries ago with Richmond College, founded in 1830 by Virginia Baptists as a college of liberal arts and sciences for men. Around this nucleus were established The T.C. Williams School of Law (1870); Westhampton College, a college of liberal arts and sciences for women (1914); the Graduate School of Arts and Sciences, for advanced study in the liberal arts and sciences (1921); The E. Claiborne Robins School of Business, for undergraduate and graduate study in business (1949); University College, for evening, summer, and continuing education (1962), now called the School of Continuing Studies; and the Jepson School of Leadership Studies, the first school of leadership studies in the United States (1989). In 1990, the academic missions of Richmond College and Westhampton College were combined to create the School of Arts and Sciences. Richmond College and Westhampton College continue as residential colleges for men and women respectively, providing special programming and leadership opportunities in student life.

Richmond benefits from a heritage of ethical values, a residential character, and a commitment to liberal and general education opportunities through intimate schools and colleges joined into a substantial whole.

Statement of Purpose

The University of Richmond is an independent, privately-endowed institution of higher education that provides a comprehensive academic program for men and women. It offers the intimacy of a small university and the diverse educational opportunities that derive from undergraduate degree programs in the liberal arts and sciences, business, and leadership studies, as well as graduate and professional programs in law, business, and selected areas of the arts and sciences. The University also provides a variety of credit and continuing education programs as well as cultural events to the larger community. Historically related to the Baptist General Association of Virginia, the University affirms its commitment to serve individuals of all faiths and persuasions.

The educational objectives of the University are:

- to cultivate in students the interest, capacity, and skills necessary for independent intellectual inquiry and life-long learning;
- to convey to students a representative portion of that body of knowledge that has accumulated and endured through the history of world cultures;
- to encourage and aid students in the development of basic beliefs, values, and attitudes, including those of cooperation and tolerance;
- to assist students in selecting and preparing for careers and for study in graduate and professional schools;
- to foster in students personal habits that contribute to health and physical fitness.

In order to achieve these objectives, the University is committed to:

- an educational environment conducive to the development of the whole person--intellectually, socially, spiritually, physically, and morally;
- an academic setting that guarantees and encourages freedom of thought, expression, and association;

- an undergraduate curriculum that requires mastery of essential intellectual tools, awareness of the diversity of human cultural experiences, extensive knowledge of at least one area of study, and opportunities for interdisciplinary and integrative inquiry;
- a faculty dedicated to excellent teaching and dialogue with students, and active engagement in scholarship, scientific inquiry, and artistic creativity;
- a diverse, largely full-time and residential student body that participates in a broad range of University activities including opportunities for research, leadership, and the development of civic responsibility;
- the essential resources for learning, such as libraries, laboratories, studios, information and communications technology, and media resources;
- opportunities for internships, social commitment and public service, and other domestic and international learning experiences;
- a program of varied social, spiritual, and physical activities that provide occasions for growth, fun, and fellowship;
- an administration and staff that preserve and enhance the University's environment and resources, and that represent the institution to the broader community it serves.

Adopted by
University of Richmond Board of Trustees, May 16, 1997

Organizations and Accreditation

Five academic schools and two residential colleges are incorporated to form the University of Richmond with authority and responsibility vested legally in the Board of Trustees and the President of the University. The several colleges and schools award no degrees individually, but all degrees for work done in any one of them are conferred by the University of Richmond.

The University enrolls approximately 2,900 full-time undergraduates, 93% of whom live on campus; some 500 full-time law and graduates students; and 1,300 part-time students, largely from Richmond and the surrounding community.

The University is fully accredited by the Southern Association of Colleges and Schools to award associate, baccalaureate, master, and juris doctor degrees. The University is also certified by the Virginia State Board of Education to offer teacher licensure programs. Various departments and divisions have more specialized accreditation. Included in this category are the music program, accredited by the National Association of Schools of Music, and the chemistry program, accredited by the American Chemical Society. In addition, The E. Claiborne Robins School of Business is accredited by the American Assembly of Collegiate Schools and Business at the undergraduate and graduate levels, and The T.C. Williams School of Law is accredited by the American Bar Association.

Female 94-95	37	7	29 / 78%	36 / 97%	372 / 294 / 79%

These figures reflect that 80% of all recruited student-athletes who enrolled during these five years graduated in five years and that 96% of these same student-athletes either graduated or transferred in good academic standing.

¹% does not reflect that one student-athlete graduated in six years and an athlete drafted in his junior year returned from professional major league baseball in off seasons to complete his degree in seven years. The graduation rate with these two included would be 78%.

¹Number of faculty reported for each respective year in The Annual Report on the Economic Status of the Profession, Academe, Bulletin for the American Association of University Professors, March-April issue each year.

² Number of faculty reported to Academe in 1991-92 is lower than normal due to the fact that 13 tenure-track positions were filled by visiting appointments for the academic year.

* Only faculty at the assistant professor level and above are reported. Figures reported under each division include visiting appointments and faculty on continuing, non-tenure-track appointments.
Administrators and librarians with faculty status are not included.
